

Benjamin Holmes

IT professional with experience in WordPress custom theme development and a strong background in modern JavaScript frameworks and interactive media. Recently completed an MA in Computational Art (Distinction) at Goldsmiths, University of London.

Combines technical skills with a creative and analytical mindset, alongside strong teamwork and leadership experience from previous roles. Experienced in troubleshooting and problem solving. Excels at communicating technical language to non-technical individuals.

Relevant Experience

Junior Web Developer

Complex Creative — London, UK
Jan 2021 – Jun 2021

- Managed updates, bug fixes, and maintenance across a portfolio of WordPress websites
- Used HTML5, CSS, and PHP to implement features and resolve technical issues
- Ensured websites were responsive, accessible, and performant
- Collaborated with team members to deliver client-focused solutions

Web Developer Intern

Hyperlink Media — London, UK
Dec 2017 – May 2019

- Developed custom WordPress themes with guidance from senior developers
- Built front-end features using HTML, CSS, and JavaScript
- Contributed SEO-optimised content, improving understanding of search performance
- Assisted with digital content and data-driven projects
- Participated in networking and client-facing activities
- Part-time and voluntary
